

SPIS RZECZY—ANNUAL INDEX

1—2

Maciej Bąbel

- Giant gypsum intergrowths from the Middle Miocene evaporites of southern Poland 1

Stanisław Skompski

- The dasycladacean nature of Late Paleozoic palaeoberesellid algae . 21

Arnold Fuchs

- Conodont biostratigraphy of the Elbingerode Reef Complex, Harz Mountains 33

Jan Malec, Grzegorz Racki & Maria Racka

- The leperditiid-charophyte assemblage from the Givetian of Dębnik, and its stratigraphic value 51

Ireneusz Walaszczyk

- Mid-Cretaceous events at the marginal part of the Central European Basin (Annopol-on-Vistula section, Central Poland) 61

Marcin Machalski & Ireneusz Walaszczyk

- Faunal condensation and mixing in the uppermost Maastrichtian/Danian Greensand (Middle Vistula Valley, Central Poland) 75

Ewa Popiel-Barczyk & Wiesław Barczyk

- Eocene brachiopods from Wola Łużańska and Skalnik in the Central Carpathians 93

3—4

Janina Szczechura

- A new ostracode species, *Neomonoceratina chomentovens* sp. n., from the Korytnica Basin (Middle Miocene; Holy Cross Mountains, Central Poland) 105

Urszula Radwańska

- Free-living crinoids from the Korytnica Clays (Middle Miocene; Holy Cross Mountains, Central Poland) 113

Grażyna Kaczmarek

- Asteroids from the Korytnica Basin (Middle Miocene; Holy Cross Mountains, Central Poland) 131

Stefania Mączyńska

- A supplementary account on the echinoids from the Korytnica Basin (Middle Miocene; Holy Cross Mountains, Central Poland) 145

Jacek Gutowski

- Late Tertiary alluvial gravels of the Korytnica Basin (Holy Cross Mountains, Central Poland) 155

Stanisław Speczik & Willy Püttmann

- Origin of Kupferschiefer mineralization as suggested by coal petrology and organic geochemical studies 167
