

# SPIS RZECZY—ANNUAL INDEX

1—2

*Krzysztof Birkenmajer*

- Onset of Tertiary continental glaciation in the Antarctic Peninsula sector (West Antarctica) . . . . . 1

*Zdzisław Bełka*

- Lower Carboniferous conodont biostratigraphy in the northeastern part of the Moravia-Silesia Basin . . . . . 33

*Grzegorz Racki*

- A new atrypid brachiopod, *Desquamatia macroumbonata* sp. n., from the Middle to Upper Devonian boundary beds of the Holy Cross Mts . . . 61

*J. S. H. Collins & Andrzej Wierzbowski*

- Crabs from the Oxfordian sponge megafacies of Poland . . . . . 73

*Andrzej Pisera*

- Paleoecology and lithogenesis of the Middle Miocene (Badenian) algal-vermetid reefs from the Roztocze Hills, south-eastern Poland . . . . 89

*Andrzej Żelaźniewicz*

- Granulitic inliers amidst a gneissic/migmatic complex of the Owl Mts, Sudetes . . . . . 157

*Wojciech Jaroszewski*

- Magmatic-tectonic jointing in granitoids of the Tatra Mts . . . . . 173

*Leszek Lindner*

- Origin and age of the Cracow Canyon, Western Tatra Mts . . . . . 189

3—4

*Ryszard Marcinowski & Jost Wiedmann*

- The Albian ammonite fauna of Poland and its paleogeographical significance . . . . . 199

*Krzyszyna Kolasa & Andrzej Ślaczka*

- Sedimentary salt megabreccias exposed in the Wieliczka mine, Fore-Carpathian Depression . . . . . 221

*Stanisław Orłowski*

- Lower Cambrian and its trilobites in the Holy Cross Mts . . . . . 231

<i>Stanisław Orłowski</i>	
New data on the Middle Cambrian trilobites and stratigraphy in the Holy Cross Mts . . . . .	251
<i>Grzegorz Racki</i>	
Conodont biostratigraphy of the Givetian/Frasnian boundary beds at Kostomłoty in the Holy Cross Mts . . . . .	265
<i>Sergio Rodriguez</i>	
The taxonomic status of the geyerophyllid corals . . . . .	277
<i>Klaus Bandel &amp; Bogusław Waksmundzki</i>	
Triassic conodonts from Jordan . . . . .	289
<i>Pham Khang</i>	
The development of karst landscapes in Vietnam . . . . .	305
