

**INTERDISCIPLINARY STUDIES (2006–2009)
AT STARUNIA (CARPATHIAN REGION, UKRAINE)
– THE AREA OF DISCOVERIES
OF WOOLLY RHINOCEROSES**

Edited by Maciej J. Kotarba

Acknowledgements

My foremost gratitude is due to Professor Antoni Tajduś, Rector of the AGH University of Science and Technology in Kraków, for his kind and patient support for the Starunia project.

I greatly acknowledge the support of the Authorities from the Ministry for Environment Protection of Ukraine in Kiev and the Ivano-Frankivsk National Technical University of Oil and Gas in Ivano-Frankivsk, Ukraine, particularly to First Vice-Minister Mr. Stepan O. Lizun, Rector, Professor Eustachyi I. Krizhanivskiy, and to University staff members: Professor Oleg M. Adamenko and Dr. Orest R. Stelmakh. Their assistance was decisive for field work in the Starunia area.

Particular gratitude is expressed to Dr. Igor V. Dudok and Dr. Yuriy V. Koltun of the Institute of Geology and Geochemistry of Combustible Minerals of the National Academy of Sciences of Ukraine for their help in work in Lviv Archives.

Professor Jacek Matyszkiewicz, Dean of the Faculty of Geology, Geophysics and Environmental Protection of the AGH University of Science and Technology, has provided generous support to our work in Ukraine.

Financial support from the Ministry of Science and Higher Education in Warsaw (Grant No. 139/UKR/2006/01) is kindly acknowledged.

My special thanks are expressed to Professor Witold Zuchiewicz, Editor-in-Chief of the *Annales Societatis Geologorum Poloniae* and Professor Jan Golonka for their help with the editorial work.

I am grateful to Professor Stefan W. Alexandrowicz from the Polish Academy of Arts and Sciences in Kraków for his help in preparation of the programme of lithological, palaeobotanical and malacological studies.

Sincere thanks are due to President Mr. Maciej Górski and staff of the Toruń Geophysical Company for their help with the geophysical surveying and Mr. Zbigniew Deregowski and staff of the Polish Drilling Company ALGEO from Grabownica for drilling of research boreholes in Starunia.

I also thank the Board of the Society of Research on Environmental Changes “Geosphere” in Kraków for support of the idea of research in Starunia.

Thanks are due to all the reviewers of the manuscripts at various stages of preparation, who devoted time borrowed from their busy schedules in order to critically read the papers. I also thank Professor John B. Curtis of the Colorado School of Mines in Golden, Dr. Geoffrey S. Ellis, Dr. Paul Lillis and Dr. Mark J. Pawlewicz of the U.S. Geological Survey in Denver, and Dr. Wojciech Mayer and Ms. Jolanta Lepiarczyk of the AGH University of Science and Technology in Kraków for improvements of English manuscripts, and also to Ms. Joanna Gawęda-Skrok, Ms. Maria Fremel and Mr. Sebastian Ptak for technical editorial work.

Many thanks are due to all members of the Starunia Team for several years of hard work and joint adventure.

Last but not least, I want to express all my gratitude to my Loving Wife for her understanding and patience.

Prof. Dr. Maciej J. Kotarba
Editor and Leader of the Starunia Team
